

# REG'ACTIV

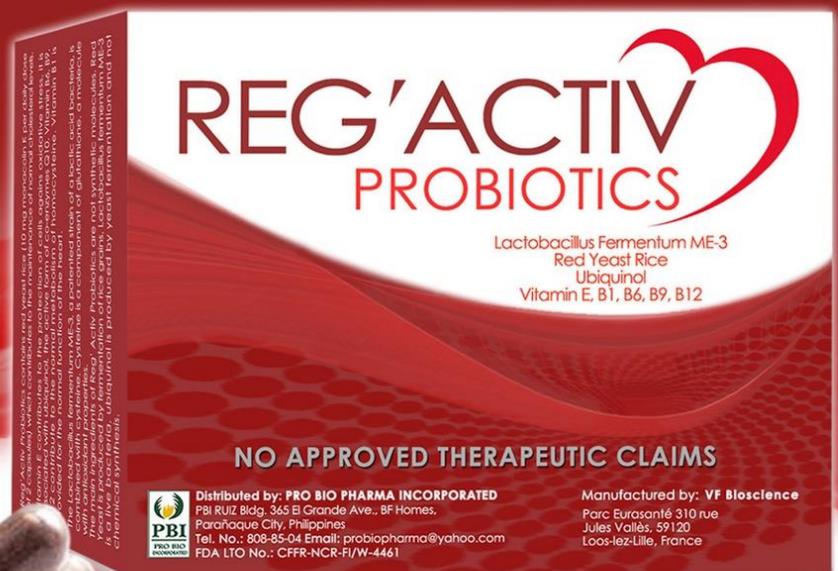

## PROBIOTICS

LACTOBACILLUS FERMENTUM ME-3

VITAMINS E, B1, B6, B9, B12

RED YEAST RICE

UBIQUINOL

**TRIPLE  
EFFECT**

**Natural formulation - Combination of active ingredients for a triple effect :**

- contributes to the maintenance of normal cholesterol levels
- contributes to the protection of cells against oxidative stress
- contributes to the normal metabolism of homocysteine

**Food supplement for cardiovascular health.**

# CARDIOVASCULAR HEALTH

REG'ACTIV  
PROBIOTICS

Reg'Activ Probiotics has been specially formulated for cardiovascular health. This innovative formulation combines *L. fermentum* ME-3 with functional ingredients, exerting a triple effect on cholesterol levels, protection against oxidative stress, and metabolism of homocysteine.

## Red Yeast Rice

Reg' Activ Probiotics contains an extract of red yeast, with a standardized content of monacolin K ( 10 mg for 2 capsules ). Monacolin K contributes to the maintenance of normal cholesterol levels.

## Ubiquinol, vitamin E

Ubiquinol is the active form ( non oxidized ) of coenzyme Q10. Vitamin E and ubiquinol are two essential antioxidants present in LDL particles, where they prevent oxLDL formation. Ubiquinol is also known to limit the side effects of statins.

## Vitamin B

Vitamin B6, B9, B12, contribute to the normal metabolism of homocysteine. Vitamin B1 contributes to the normal function of the heart.

## Lactobacillus fermentum ME-3

Lactobacillus fermentum ME-3 is a strain of Lactic acid bacteria. It has the capacity to accumulate and regenerate glutathione, an essential cellular antioxidant. Clinical studies have shown that consumption of ME-3 leads to a reduction of inflammation and blood.

## Suggested use

1 capsule 2x a day, 30 minutes before a meal.

## Presentation

Box of 60 capsules of 556 mg

KANEKA *QH*™
